

9. The Dungeons of Agwisanseong

"Last time, on Huntr/x Quest":

The girls fell into a series of vile traps and ambushes in the castle, but managed to fight their way to the throne room. Agwi Hwasin was nowhere to be found, but they did manage to defeat his right hand ally, and in doing so find the keys to the castle's dungeon. With hope that they might find Celine inside, they opened the massive doors and entered the dungeon's murky and dark hallways.

Now heroes, prepare yourselves for quest 9: The Dungeons of Agwisanseong.

The dungeon appears to be a complex structure, with numerous isolated cell blocks as you head further in. When you first entered, you quickly dispatched a guard who had a note indicating that Celine was brought to the deepest cell block: Cell Block D. You'll have to work your way through the complex to reach her.

X - The girls start here.

When they return here with Celine, the quest ends. Say:

*Celine stares in disbelief at the girls for a moment before finally speaking. "I... I can't believe you saved me, here of all places. How did you make it here alive? You must be the most talented fighters in the world! Come on, let's get out of here. Agwi Hwasin is out there somewhere, making a plan. We need to find a way to lure him out."

Over several hours and many more harrowing battles, the girls finally make their way back up the stairs and see sunlight once more. With the monk's help, they seal the portal behind them again.

The girls each get 800gp of experience for bringing Celine to safety from the very depths of the underworld!*

A - When a girl goes to open the door: *The door is marked "Cell Block A". As you push open the door, rats scurry away into small holes in the walls.

B - Upon searching in this room, the girls will find a Cell Block B security key in the lock box, as well as a Potion of Healing.

C - When a girl goes to open the door: *The door is marked "Cell Block B". If they have the Cell Block B security key, say: You insert the key, and it opens easily.*

D - When a girl goes to open the door: *This thick iron door is marked 'Cell Block D'. If they have the Cell Block D security key, say: You insert the key, and it opens with the loud squeal of two pieces of heavy metal rubbing up against each other.*

E - When one of these doors opens, all of them do simultaneously,

revealing the contents.

F - When a girl enters this hallway, reveal the hall's contents. Say:

There's pretty heavy security here guarding a lockbox. One of them seems to be some kind of heavily-armored mechanical monstrosity!

The Chaos Sorcerer at F is a Demonic Tech Armor, an animated set of armor carved from the essence of hatred. It has the following stats:

Attack Dice: 3, Ranged ("it fires a magical missile!") Defense Dice: 0 Body Points: 8 Mind Points: 5 Type: Tactical Maneuver: Shove Special: Damage Negation (2) ("Your attack bounces off of his heavy armor plating: you're going to need to hit harder than that to penetrate his armor!")

When defeated and the heroes search, instead of pulling a treasure card say:

You find a Cell Block C key in the lockbox, along with 100gp per hero and two Potions of Healing.

G - When a girl goes to open the door: *The door is marked "Cell Block C".* If they have the Cell Block C security key, say: *You insert the key, and it opens easily.* All of the doors labeled G open at the same time, revealing their contents.

H - When you enter this room, say: *This lockbox is guarded by the largest Fimir you have ever seen!*

The Monstrous Fimir has the following stats: Attack Dice: 5 ("The runes on the monster's massive axe glow as the wound bites deeply") Defense Dice: 3 Body Points: 7 Mind Points: 4 Type: Tactical Maneuver: Intimidate Special: When the monster scores a hit, the runes on its axe glow and heal it one body point.

When defeated and the heroes search, instead of pulling a treasure card they find Cell Block D's security card in the lockbox, along with 100gp per hero.

I - All of the doors labeled I open at the same time, revealing their

contents. Say: *You can hear a familiar voice shouting angrily somewhere in this cell block, vowing revenge and groaning against their restraints. It's Celine!*

J - When the girls open the door, say: *You find Celine, chained to table restraints as guards sit nearby amusing themselves with a game of cards. They stand up and grab their weapons when they see your intrusion!*

When the enemies are defeated, say: *You unchain Celine from her restraints. She shakes her head in disbelief. "How... how are you here? WHY are you here? You should have left me, it is far too dangerous." You hear distant, heavy footsteps, and Celine's eyes go wide. "They know you're here. We have to run. GO!"*

From now on, the closest K location will spawn a wandering monster (Chaos Warrior) on each of Gwi-Ma's turns, who can move and act immediately on that turn.

K - When (J) is activated, the closest of these to a hero will spawn a Chaos Warrior on each of Gwi-Ma's turns (up to a maximum of 4 on the board at any time), who can move and act immediately on that turn.

L - When (J) is activated, this location becomes active. When a hero is in line of sight of this location, spawn a special Zombie named "The Warden".

Say: *Before you stands a menacing undead demon. It speaks to you in a low, guttural tone. "Children, I'm the warden of this here dungeon and it looks like you're attempting a jailbreak. That's not going to happen under my watch. Let's see if you can hit me. Give it your best shot."*

It has the following stats: Attack Dice: 4 Defense Dice: 10, reducing by 2 at the end of each Gwi-Ma round. *(At the end of the round, you see the Warden's undead body start to decay. A chunk of him just fell off, gross!)* Body Points: 1 Mind Points: 6 Type: Mindless Maneuver: Shove Special: Damage Negation (2) ("You knock off a piece of him, but he seems unphased by it. Must not have been an important piece.")

If the Warden's defense dice reach 0 before he is killed, say: *Suddenly, you see the warden's eyes widen. His decaying form finally gives away completely, and he falls into pieces on the ground before you.*

Wandering Monster in this Quest is: **Chaos Warrior**
