

4. The Library of Jang

Last time, on Huntr/x Quest...

After a surprise ambush at Jeju Island, Agwi Hwasin kidnapped Celine and brought her into the underworld. You have to find a way to pursue him and rescue her. Celine had mentioned the Chronicles of Mudang; perhaps they will reveal some information that would help you in your quest.

Now heroes, prepare yourselves for Chapter 4: The Library.

It was a treacherous three day journey through the mountain trail to the Library of Jang, but you finally made it. As you ascend the staircase from the ground floor into the library, you find that every wall seems covered from floor to ceiling with books, as if the walls were made not of stone but of the archives themselves.

You know not where the Chronicles of Mudang are held within this sprawling library, but you remember Celine mentioning that a central room held a paper catalog where you might be able to find the location of the tome.

X - The Girls start here.

(NOTE: If you don't have a ton of bookcases, they are purely decorative. Leave some out.)

A = When they enter this room, say:

You've finally found it: the catalog archives of the Library of Jang. Any of you can spend your turn searching the catalog for the location of the Chronicles, but beware of attack.

Any hero who elects to search the catalog will not be able to take any action other than performing an unassisted Mind Check. If they succeed, say:

You have located the Chronicles of Mudang! Head over there to retrieve it!

Point at location (B) on the map. Event (B) can now be activated.

While in this room, both immediately and during each of Gwi-Ma's turn a wandering monster (Orc) should spawn at each of the entrances to this room, allowing for a maximum of 4 of these wandering monsters to be alive at any time. Newly spawned monsters do not take their turn until the next round.

B = This does not activate until the girls have completed the challenge in (A). If they have, then spawn creatures etc... the next time the heroes can see through or open the door.

When they enter, say:

The demons in this room appear to be looking for something.

On search, say the following instead of pulling a treasure card:

Reaching up to the top bookshelf, you pull an ancient grey leather tome down. In gold lettering, the front reads 'The Chronicles of Mudang.' You tuck it under your arm. It's time to get out of here.

From now on: (J) is active, replace the door at (L) with a Stone Tile,

C = No creatures spawn here even if they open the door unless the heroes have completed (A). If they have, then spawn creatures etc... the next time the heroes can see through or open the door. Once (A) is completed, all C doors open when any one opens.

D = No creatures spawn here even if they open the door unless the heroes have completed (B). If they have, then spawn creatures etc... the next time the heroes can see through or open the door. Once (B) is completed, all D doors open when any one opens.

The wall has collapsed: there's no way through! There must be another way to escape!

E = If the heroes have completed (B) and clear this room, tell them when they search *You notice that one of the windows leading out to the ledge of the building is unlocked. You push it open.* And then reveal this secret door.

F = When the girls turn this corner, tell them:

You see what might be a safe place to descend at the far end of the ledge: a wooden scaffolding coming up from the ground that you might be able to jump onto and climb down! However, a particularly tough-looking gargoyle is standing between you and it!

Place the table on its side just off of the board, north of where it is on the map.

The gargoyle has 6 Body Points instead of the normal 3.

G = Whenever a girl reaches this, say:

The scaffolding looks fairly rickety and is a few feet below you. You're going to have to jump for it. Make a body check!

Have them make a Body Check (assisted if there's an adjacent ally or one who is already on the scaffolding). If they fail, they can choose between making a bad jump and injuring themselves on the way down to take 3BP of damage, or waiting for their next turn to make another attempt.

For every Gwi-Ma turn after the first hero reaches this, spawn a new Orc wandering monster at F, with no limit. It cannot move or attack the turn it spawns. (this is in addition to wandering monsters spawning at the nearest J)

Once all the girls are safely on the ground, say:

As you climb down from the scaffolding, you can hear the wailing of demons nearby. Gripping the old leather-bound book tightly, you make a hasty exit. You girls have some reading to do. You each earn 300gp worth of experience from what you glean in the tome.

H = All (H) doors open at the same time. Say:

You see several desks and a shelf filled with research papers. You wonder if this is where the librarians worked. You wonder where the librarians are now.

When searched, instead of pulling from the treasure deck:

The corpses of the two Fimirs held tattered employee ID cards: they were the librarians, before being corrupted by the power of Agwi Hwasin. You are glad that they are now at rest. Rifling through the desk, you find important historical research worth about 200gp per hero.

I = All (I) doors open at the same time. Say:

Other than the demon footprints in the thick layer of dust on the floor of these rooms, you can tell that no one has stepped into this area for many years: possibly even decades. The air smells stale.

When searched, instead of pulling from the treasure deck, say:

To your surprise, you find a long-forgotten tomb in this room. What is it doing in a library? Make an assisted Mind Check.

If they pass the mind check, say:

You think to check the tomb for inscriptions. It says 'Jang the Librarian, 1478-1556. May the light of knowledge brighten the path of all those who seek it here.' You feel a presence pass through you, and suddenly your mind feels clearer. Each hero gains one permanent upgrade to her Mind points, if they have an available upgrade slot. Otherwise, they gain 75gp of experience.

If they fail the mind check, say:

You decide to open the lid of the tomb. The room quakes for a moment, and suddenly spikes shoot out from the open lid! Make an assisted Body Check, or be wounded for 2 Body Points. You find 50gp per hero worth of old documents amidst some long-decaying bones.

J = Only active once (B) is completed. The nearest (J) to a hero will spawn a wandering Orc here during each of Gwi-Ma's turns. It does not move or attack the turn it spawns.

K = When a hero opens this chest, they find treasure worth 100gp per hero.

L = If the heroes have completed (B) and come to this door, replace it with a stone tile.

Wandering Monster in this Quest is: **Orc**
